

# ALEŠ HOLMAN

FRONTEND SOFTWARE DEVELOPER

Úpice, Czech Republic | +420.732.306.093 | alesholman@gmail.com | [LinkedIn](#)

## PROFESSIONAL PROFILE

A dynamic, motivated, bilingual professional with a background and proven work ethic to guide and support frontend software development with React, on-time project delivery, complex problem-solving, and more. Dedicated team member who is known for developing highly efficient and functional code, with the skillset to train and mentor team members, perform reviews to verify proper application functionality, proactively learn and utilize new skills, and ensure compliance with quality standards. Out-of-the-box thinker who is comfortable working in teams or independently to ensure solutions consistently meet or exceed goals. Credentials include a Meta Frontend Developer Specialization. Graduate of the five-month intensive Greenfox Academy Full-Stack Development Bootcamp Program. Strong knowledge of React, TypeScript, Redux, Git, Figma, and more.

## CORE COMPETENCIES

- React-Based Applications
- Version Control
- Training Coordination
- Requirements & Feedback Analysis
- Performance Optimization
- Frontend Development
- Issue Resolution
- Collaboration
- UI/UX Design

## WORK EXPERIENCE

NN GROUP, PRAGUE, CR, 2022 TO PRESENT

### FRONTEND DEVELOPER

- Maintain responsibility for developing and maintaining the frontend of React applications for an insurance company by leveraging strong knowledge of React, TypeScript, MUI, Redux, Git, Azure, Figma, and other technologies.
  - Oversee the frontend development of an application enabling insured clients to report insurance events, such as accidents, illnesses, and work incapacity; maintain a strong focus on delivering a personalized user experience based on type of contract, upload file, and more while enabling multiple damage reports at once.
- Align objectives and bridge communications with the design team and customers to strengthen application quality through active listening and feedback collection and analysis.
- Ensure the proper functionality of API communication in close collaboration with the backend development team.
- Support colleagues in transitioning from backend to full-stack developers by providing training on React.
- Participate in trainings and professional development to continuously expand skills.
- Adapt to quickly changing priorities within a fast-paced, deadline-driven environment.
- Earn recognition for consistently producing clean, highly efficient code.

## EDUCATION

### INTENSIVE FULL-STACK DEVELOPMENT BOOTCAMP (NINE HOURS PER DAY, FIVE DAYS PER WEEK FOR FIVE MONTHS), 2022

*Greenfox Academy, Prague, Czech Republic*

*Relevant Coursework: JavaScript, C#, React, ASP.NET, Git*

*Final Project: Collaborated within an international six-person team to develop a highly functional airline website, successfully applying new skills in a real-life project simulation; strengthened team collaboration and GitHub knowledge.*
